# **SITUATION SUMMARY**

## **Water Disruption Exercise, Santa Clara County**

- Santa Clara County Public Health Department held a table top exercise focusing on water disruption. Cal OES Coastal Region staff participated in the exercise.

## **2014 Statewide December Winter Storms**

- A Proclamation continuance was received from Marin County.

## **Tsunami Preparedness Week 2015**

- The Governor has proclaimed March 22 – 28, 2015 Tsunami Preparedness Week. During the last full week of March the state supports activities and outreach in coastal counties and communities. This week is a focused opportunity for local governments to offer consistent tsunami safety information to anyone living or working at and visiting the coast. Activities may include tests of the National Tsunami Warning System, exercises using a Pacific-wide, NOAA-developed Exercise (Kamchatka Russia Scenario), public evacuation drills, airplane fly-overs, and community-level outreach, workshops and fairs. Find local events and register at [www.TsunamiZone.org](http://www.TsunamiZone.org) to learn how to protect yourself from a tsunami anytime you're near the coast.

## **Weather of Concern**

- Warm weather is expected to return to the majority of the state. Reno, Oxnard, and San Diego NWS Offices are reporting that temperatures are projected to rise to well above normal values late this week with the potential for heat records to be broken. In Southern California, Santa Ana wind is expected to be weak to moderate so gusts near 50 mph at the windiest prone passes and canyons. The hottest day is expected on Friday for most areas.

## **Cal EOC Incident – 2014 Drought**

- SOC / Inland REOC remains activated in support of 2014 Drought

# WEATHER

## WEATHER SYNOPSIS BY REGION:

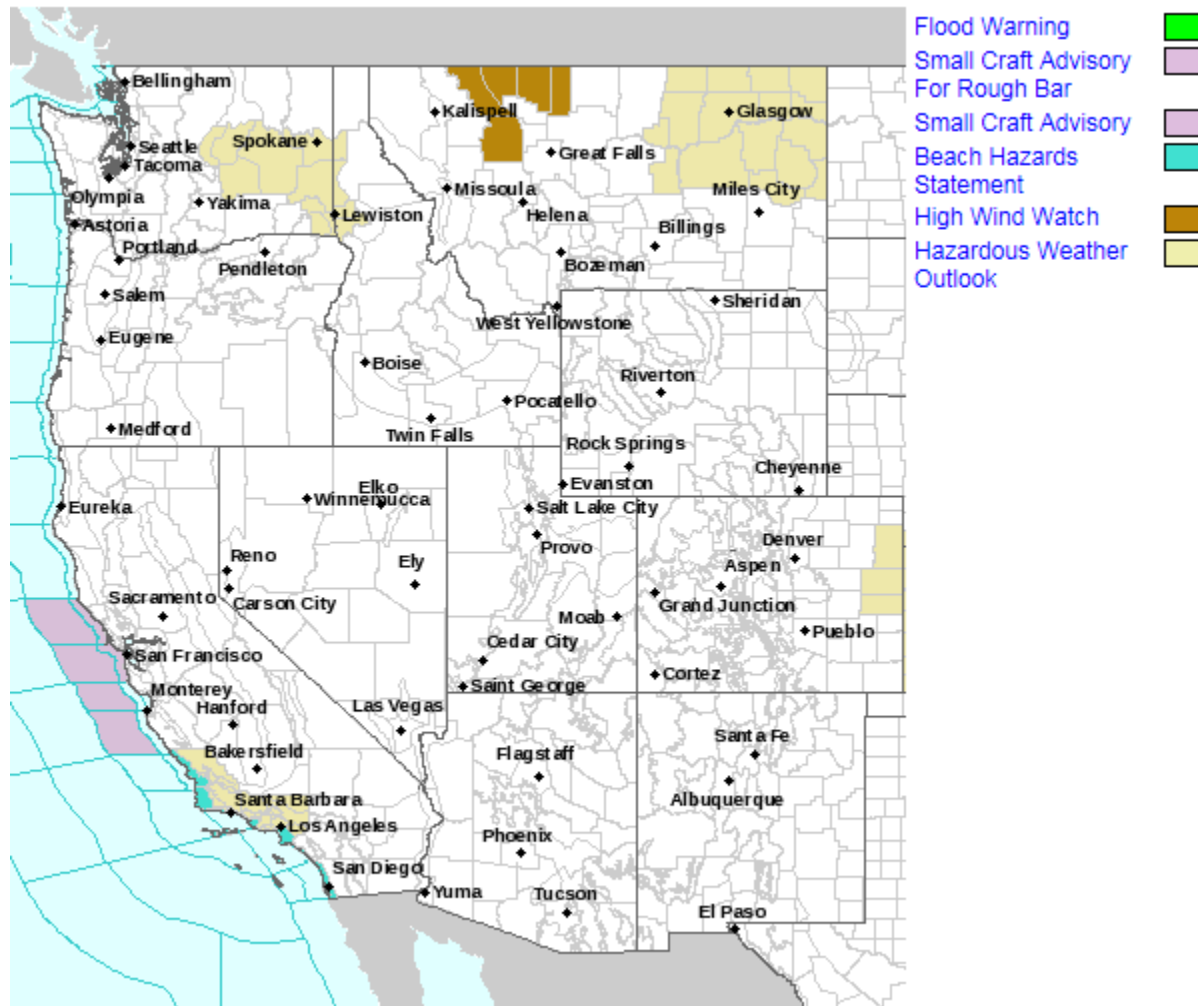

### **NORTHERN CALIFORNIA**

The strong high pressure ridge over Northern California today will drift east over the Great Basin on Friday. The northeast-east and offshore surface winds this morning will diminish by midday and are not expected to redevelop tonight. Relative humidity recovery will be better in those areas tonight. By Friday afternoon a weak Pacific frontal system will reach the North Coast with clouds, gusty winds, and rain. Onshore flow will push cool humid marine air into coastal areas. The main front will move into northern areas Friday night with scattered showers. A few showers are possible over the higher terrain Saturday as the front moves southward, but computer models are showing a lot less activity than they did yesterday. Snow levels will be over 6000'. A westerly general flow will prevail Sunday through the middle of next week. Onshore flow will mean that partly cloudy and mild conditions will prevail during this time. Occasional disturbances within the westerly flow will lead to isolated showers in the northern mountains at times.

### **SOUTHERN CALIFORNIA**

High pressure over the Eastern Pacific will expand into the area, resulting near record high temperatures today and Friday. Weak offshore flow will generate east and northeast winds of 10-20 mph with isolated gusts to 35 mph, mainly over San Diego County. Temperatures today and tomorrow will be up to 15 degrees above normal with highs reaching the mid and upper 90s in the valleys and lower foothills of Southern California. The mountains above 7,000 feet will be well into the 70s. Minimum relative humidity will generally remain in the teens, but a few places from 1,000 – 4,000 feet in Southern California will see readings approach the single digits for a few hours this afternoon and again Friday afternoon. This weekend, a weak trough heading into Pacific Northwest will allow a gradual return of the marine layer to occur. Temperatures Saturday will be 5-8 degrees cooler over most regions. By Sunday and Monday, some marine layer stratus will return to the coast. Temperatures will still remain a few degrees above normal early next week as a low amplitude ridge builds back into the region. During the second half of next week, northwesterly flow may bring windy conditions to the Sierras and Kern County Mountains, the Inyo National Forest as well as the deserts. Temperatures may cool slightly after next Wednesday, but no precipitation is expected to reach the area during the next 7-10 days.

# RECOVERY ACTIVITIES

## Round Fire, Mono County

- Site sampling and hazardous materials recovery of the affected properties began 03/14/15. Cal Recycle began debris removal operations 03/23/15.
- Two Recovery personnel have deployed to Mono County to assist with debris removal operations.
- An Applicant's Briefing will be held on 04/03/15 at 1300 hours, at the Lee Vining Community Center, to discuss the eligibility and guidelines of the CDAA program.

# **CAL OES 2014 DROUGHT**

## **Cal EOC Incident – 2014 Drought**

- The SOC, Inland, Coastal, and Southern REOCs and the Santa Barbara County EOC are activated in support of the Drought State of Emergency and continue to monitor the situation.
- The Governor issued an Executive Order on 09/19/14, to streamline relief efforts for families with drinking water shortages due to drought. Specifically, through the California Disaster Assistance Act, to provide temporary water supplies to households without water for drinking and/or sanitation purposes.
- CDAA 2014 Drought Fact Sheet and Frequently Asked Questions provided to Regions for reference and distribution.
- Cal OES Recovery continues to coordinate a monthly state interagency conference call regarding drought community impacts.
- Cal OES Regional (Inland, Coastal, Southern) conference calls continue to occur on a bi-weekly basis.

# CAL OES MISSIONS

## Ongoing Cal OES Missions

- **2015-LAW-9096, 3/23/15 1030 hours:** Trinity County Sheriff's Department has uncovered new information on the whereabouts of a missing person from 2014. Through their investigation, they have discovered an address the missing person was staying in Shasta County. Trinity County SO has requested assistance with conducting a search (after a search warrant is served) at the property on Saturday 03/28/15. Trinity County Sheriff's Department via Shasta County Sheriff is requesting a Human Remains Detection dog to assist in this search. The property to be searched is approximately 80 acres, with small ponds and hilly terrain. **Mission On-going.**

**Mission:**

We protect lives and property, build capabilities, and support our communities for a resilient California.

*We achieve our mission by serving the public through effective collaboration in preparing for, protecting against, responding to, recovering from, and mitigating the impacts of all hazards and threats.*
